

To Whom it May Concern:

Allow the free market to operate. Satellite radio is a viable business that offers variety and quality superior to local broadcast channels. That is the primary reason I PAY to receive it. I respectfully submit that the NAB should have no influence on what I am permitted to hear on channels that I have PAID to receive.

Please reject petition 04-160 and allow XM Satellite radio to continue to provide the programming that subscribers want and PAY for.

Thank you.

Gerald L. Graves
